

4th VACCINE and ISV
Annual Global Congress

3-5 October 2010 | Vienna, Austria

Call for Papers Deadline: 18 June 2010

Sign up for news updates at: www.vaccinecongress.com

CALL FOR PAPERS

Now in its fourth year, the annual Vaccine Congress provides a forum for the exchange of ideas among international scientists, governmental authorities and healthcare workers to accelerate progress in the development of vaccines for infectious and non-infectious diseases.

Attendance will enable you to:

- Access unique, high-quality content and gain a state-of-the-art report on the development of vaccines for infectious and non-infectious diseases
- Learn from experts and opinion leaders in the field
- Present your research as an oral or poster presentation - abstracts invited by 18 June 2010
- Network with an interdisciplinary group – including academics and researchers, regulatory and governmental agencies, charities, and health and industry professionals

To supplement a number of invited keynote presentations, contributions are requested on the following topics for oral and poster presentation at the Congress.

- Human vaccines, infectious diseases
- Human vaccines, non-infectious diseases
- Veterinary vaccines
- Immunology / Animal models
- Vectors / Adjuvants / Drug delivery
- Production / Manufacturing / Safety
- Regulatory / Societal / Legislation aspects

Abstracts should be submitted online at www.vaccinecongress.com by 18 June 2010.

THE ORGANIZERS
